RE: Approval of the Vapor Intrusion Work Plan Implementation Report Dated March 27, 2018, for the
Solutia - J.F. Queeny Site, St. Louis, Missouri
EPA ID # MOD004954111

Dear Mr. Rosen:

The U.S. Environmental Protection Agency Region 7 in consultation with the Missouri Department of Natural Resources has completed its review of the subject document and is providing their approval with the understanding that either semi-annual indoor air monitoring will be performed or a vapor intrusion mitigation system will be installed at the Ahrens office building.

Please contact me at (913) 551-7755 if you have any questions concerning this approval and understanding of the path forward to address potential vapor intrusion at the Ahrens office building.

Sincerely,

A handwritten signature in black ink that reads "Bruce A. Morrison".
